🧠 CAREER OBJECTIVE

Detail-oriented MCA student with a strong foundation in programming, data structures, and software development principles. Seeking to begin a professional career in the IT industry by contributing to the design and development of scalable, efficient, and high-quality software solutions while continuously enhancing technical expertise and problem-solving abilities.

Committed to working in a global, multicultural environment with a strong focus on adaptability, collaboration, and continuous learning. Eager to contribute to international projects while aligning with global coding standards, quality practices, and organizational objectives.

🎓 EDUCATION

2025 – 2027	Master of Computer Applications (MCA) SVERI's College of Engineering, Pandharpur, India Affiliated to Punyashlok Ahilyadevi Holkar Solapur University Duration: 2025 – 2027 (Currently Pursuing)
2022 - 2025	Bachelor of Computer Applications (BCA) Prin. K. P. Mangalvedhekar Institute of Management Career Development & Research, India Affiliated to Punyashlok Ahilyadevi Holkar Solapur University Duration: 2022 – 2025 CGPA: 8.80 / 10.00 Equivalent Percentage: 73.59% Overall Grade: A+
2021 - 2022	Higher Secondary Certificate (HSC) – Science Stream Maharashtra State Board of Secondary and Higher Secondary Education, Pune, India Pune Divisional Board Examination Year: 2022 Percentage: 72.67%
2019 - 2020	Secondary School Certificate (SSC) Maharashtra State Board of Secondary and Higher Secondary Education, Pune, India Pune Divisional Board Examination Year: 2020 Percentage: 82.60%

💼 EXPERIENCE

INTERNSHIP EXPERIENCE

Data Science Intern

Perpetual Invention

January 2024 – June 2024

- Completed a six-month Data Science internship with hands-on involvement in real-world, data-driven projects.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Python, Pandas, and Matplotlib to extract meaningful insights.
- Developed data visualizations and analytical reports to support business decision-making.
- Collaborated with team members to build, evaluate, and optimize machine learning models for practical business applications.

SKILLS

PROFESSIONAL SKILLS

Data Science & Analytics

Python, SQL, Microsoft Excel, Data Cleaning & Preprocessing, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization, Web Scraping, Machine Learning, MLflow (Experiment Tracking & Model Management), Google Analytics, Power BI

Software & Mobile Application Development

Android Application Development using Java, Android SDK, Activity & Fragment Lifecycle Management, XML-Based UI Design, RESTful API Integration

Web Development

HTML5, CSS3, JavaScript, Responsive Web Design, UI Implementation

Tools & Collaboration

GitHub, Version Control Systems, Analytical Reporting, Dashboard Development

PROJECTS

Customer Churn Modeling Analysis using ML Flow

January 2025

- Developed a customer churn prediction system using the Telco Customer dataset to identify factors influencing customer retention.
- Implemented and compared multiple machine learning models, including Logistic Regression, Random Forest, and Gradient Boosting, to improve predictive performance.
- Applied MLflow for experiment tracking, parameter tuning, model versioning, and performance evaluation, ensuring reproducibility and structured model management.
- Conducted data preprocessing, exploratory data analysis (EDA), and feature engineering using Python to support accurate and reliable predictions.

SHG E-Commerce Android Application

Major Academic Project

- Designed and developed a Self-Help Group (SHG) E-Commerce Android application aimed at digitally enabling SHG members to showcase and sell locally produced products.
- Built the application using Java and Android SDK, implementing user authentication, product listing, order management, and basic cart functionality.
- Developed XML-based responsive user interfaces with a focus on usability, accessibility, and clean design principles.
- Integrated RESTful APIs for dynamic data handling and ensured secure and efficient application workflows.
- Focused on scalability, input validation, and performance optimization to deliver a stable and user-friendly mobile application.

LANGUAGES

English Marathi Hindi Kannada
